

NIGHTFORCE

Reticle MIL-XT™

Available in:

- ATACR® 7-35x56mm F1
- ATACR® 5-25x56mm F1
- ATACR® 4-20x50mm F1
- ATACR® 4-16x42mm F1
- NX8® 4-32x50mm F1
- NX8® 2.5-20x50mm F1
- NX6™ 6-36x56mm F1
- NX6™ 5-30x56mm F1
- NX6™ 3-18x50mm F1

Applications:

- Competition
- Extreme Long Range (ELR) Shooting
- Field/Tactical

Features:

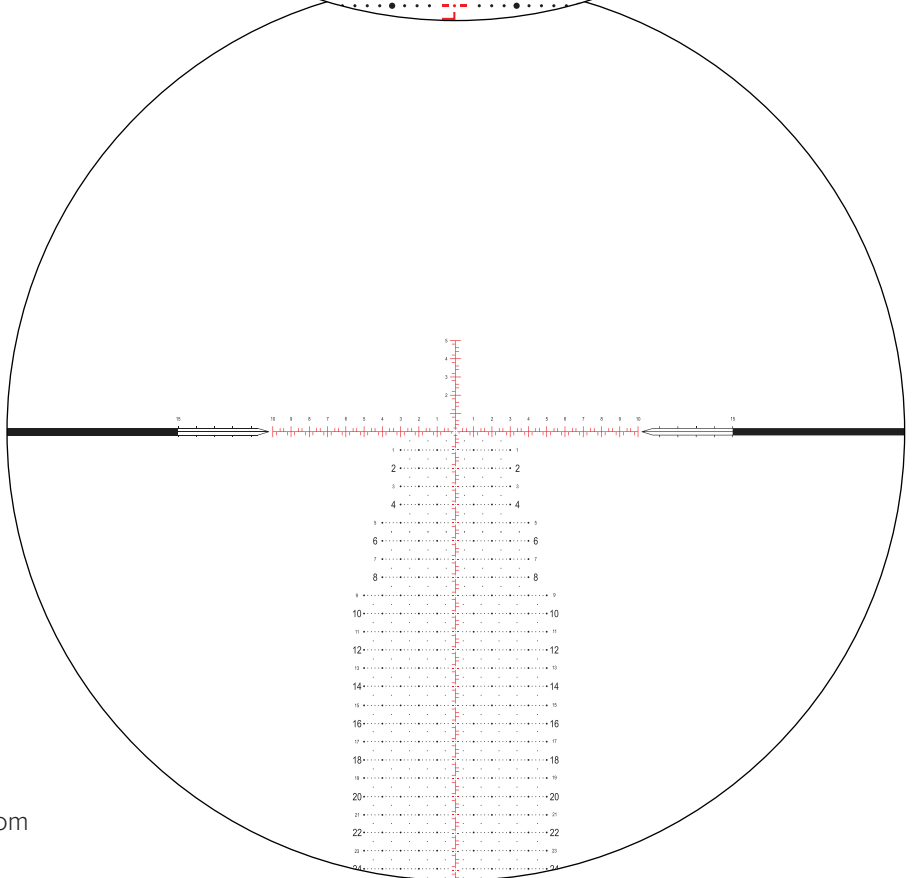

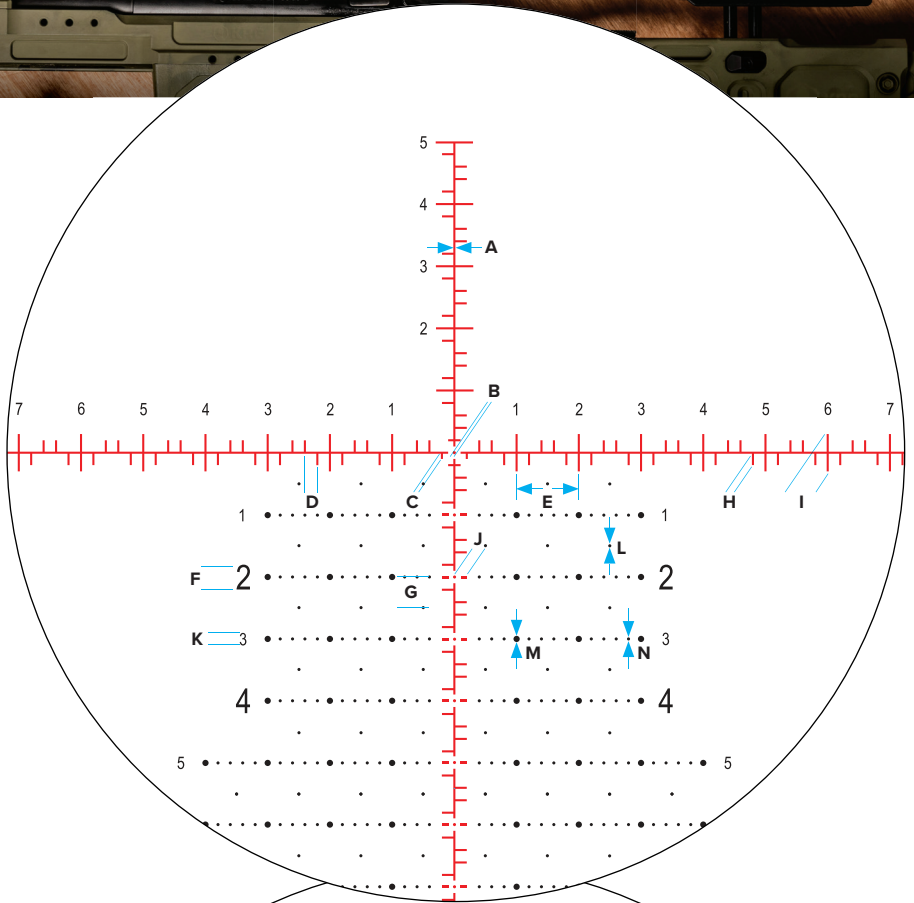

- Allows accurate hold offs and precise first-shot placement
- Floating center-dot for precise aiming point
- Excellent for range estimation and rapid target engagements
- Intelligent numbering for fast and easy holds
- Red indicates illuminated portions

Reticle

MIL-XT

The Nightforce Mil-XT™ is equipped with all the features precision shooters need. The .05 MRAD floating center dot allows for precise aiming at the smallest targets and the marked .2 MRAD hash marks give shooters well-defined windage holds under stressful conditions. Floating dots at each MRAD line along the vertical stadia provide clear aiming points while holding for elevation. Alternating sized numbers allow for easy reading and counting when the clock is running.
